

DATA SHEET

MAGNETITE ANODE TYPE: MA-CS

Surrounding electrolyte: chlorine and/or sulphate containing soil or stagnant water

Application fields: shallow groundbeds, deep groundbeds

TECHNICAL DATA

Diameter	60	mm
Total length	760	mm
Effective length	710	mm
Total weight	6.0	kg
Min. effective mass	4.7	kg
Surface area	13.4	dm ²
Max. current load	6.0	A

Standard cable type: PVDF 1 x 10 mm²

Cable length to be defined by order.

Other cable types on request.
